

Let Me Go, Mr. Hill! by Shallow South Chapters 2072

The nurse was taken aback.

Quickly rang the bell and let people come in for rescue.

When Song Rong was outside, he heard several doctors running to the Ning Lexia ward, and he had a bad feeling in his heart, and he quickly returned to the ward.

Ning Lexia was lying on the hospital bed. The doctor was doing her heartbeat test. She had a waxy face as white as paper and a pool of blood still on the ground.

"what happened."

Song Rongshi's scalp seemed to have exploded. He was already in a bad mood. The deterioration of Ning Lexia's condition made him even more flustered.

Ning Lexia was so angry that she couldn't speak, she could only stare at Song Rongshi.

A nurse on the side panicked and shivered and said, "She just knew that after the Song Group's share change happened, she was vomiting blood in anger."

The nurse happened to see that Ning Lexia was so angry that she couldn't even speak, she was half-truth and she had told the truth.

Song Rongshi was irritable and dying. He glared at the nurse and roared, "Did you tell her that there is so much nonsense when you get a needle, so why don't you be a nurse?"

The nurse's face flushed and her eyes were red. If she had dared to talk back to Song Rongshi before, but now she can't help but retort, "She humiliated me first. Her blood

vessels are too thin. I didn't have any After the tie is completed, she relied on her identity to let us the head nurse come over. Our head nurse is also very busy. Not everyone or everyone has to go around her alone."

Song Rongshi kicked on the spot and there was a stool in front of him. He had an anger gathered in his chest. Now it all broke out, "Your head nurse yesterday, the day before yesterday, there is no time today. I saw the news. I don' t have an heir to the Song Group, right? You snobbish people have dog things. Even if I can' t become an heir, any amount of money can kill you, and a word of it can make you out of work."

The little nurse trembled all over, either scared or angry.

She is also in her early twenties, and she has just graduated. Compared with iron rice bowls, young people are more dignified and valued.

Seeing that the trouble was getting worse, the rescue doctor yelled at her, "Song Shao said it was right, you quickly apologize to Ms. Ning and go out."

The doctor winked at the little nurse.

Song Rongshi refused to resist, "Let her go, I don't want to see her in this hospital."

"Rongshi, this is the hospital, not your home."

In a white robe, Ji Ziyuan has his pockets in his hands, handsome and beautiful with gold-rimmed eyes on his face, and gentle and elegant walked in. "Every employee in the hospital has signed a contract. If you say

that they have committed a medical accident, The expulsion is justified, but only with a few verbal disputes, it is unreasonable from the labor law to let our hospital expel a patient casually."

Song Rongshi sneered, "Ziyuan, you are just like someone outside. I feel that I have lost the Song Family Group's inheritance qualifications, and I am not qualified to be friends with you anymore."

Ji Ziyuan frowned. When he watched Song Rong a few times, he didn't see him for a while. The corners of the eyes of this friend who grew up with him were full of hostility and paranoia.

His disappointment, how did it become like this when Song Rong was in the past.

Of course, when there was Song Rong before, he would not ask for expulsion because of a small matter.

"Rongshi, I think you made a mistake. I also heard about it, so I took the time to take a look at you." Ji Ziyuan shrugged slightly and asked the doctor, "What's wrong with Miss Ning?"

The doctor explained, "She only had a medical examination yesterday. It should be just qi and blood attacking the heart. The patient must adjust the mood, relax and pay more attention to rest."

Ji Ziyuan felt like a mirror in his heart, but there was still someone who walked to the hospital bed and looked at Ning Lexia and said, "Le Xia' s life is better, although the Rongshi lost the Song family group, but it

also means that the Song family will not be in the future. How to care about you and Rongshi is the two of you. The lover has gone through so many twists and turns. Finally, the lover's family members have completed each other's wishes. In the future, you will stay together, even if your legs are inconvenient, Rongshi has a heavy heart. Empathy is that people will definitely take care of you."

Ning Lexia didn't hear what he said, and was so comforted that she almost vomited blood again.

What the hell, the lover's family doesn't like Song Rongshi at all, okay.

She wanted to be the mistress of the Song family so that both the upper class and the powerful would rush to flatter her.

There is nothing now.

Song Rongshi also held her hand to persuade "Le Xia, you don't feel that you are tired of me. I never, who blamed you, I have figured it out now. In fact, the Song Group is not that important. At least we have. Freedom, yes, I will marry you and take care of you. I am a family member and will not hinder me anymore. Don't worry, I will never leave you again."

""

Ning Lexia's heart is endless despair.

Looking at Song Rong's face, if she is healthy, yes, if she is not, disfigured, if she can move her hands, she would definitely not hesitate to jump up and slap Song Rong.

Who is rare for you to marry me?

But her mind is okay, the problem is.

She knew that if she was like this, if she left Song Rong, even if she was picking up the trash on the road, she would not necessarily be the one who picked her up.

She has no choice but to be tied up with Song Rongshi this idiot for the rest of her life.

Tears flowed out of her eyes.

Was crying with anger.

Song Rongshi quickly wiped her tears away. "Don't cry, don't put the place, the responsibility is on yourself. This has nothing to do with you. We will go to prove it when you are discharged."

Ji Ziyuan was amused by listening to it.

After he walked out of the ward, he told Huo Xu this matter as a joke.

Huo Xu also immediately transferred to his wife, Jiang Qingxin, who laughed for a while and called Lin Fanyue, "Did you say that Song Rong was stupid? Did Ning Lexia blame herself for crying? I was just crying out of anger."

Lin Fanyue lazily ate a slice of orange "It's a pity."

"What a pity?"

Lin Fanyue sneered, "It's a pity that Ruan Yan didn't ruin Ning Lexia. Ning Lexia would be good if she didn't break her hamstrings. Ning Lexia should be normal. Yes, I knew Song Rong had no inheritance qualifications. Guess what she would say on Song Rong's face when she slapped Song Rong?"

Jiang Qingxin smiled, "You stupid person who wants to marry me is just like you. You really think I can look at you. I think there is

someone who can marry you and be the mistress of the Song family."

"So it's a pity that Ning Lexia now looks like a ghost, even if she can't look down on Song Rong in her heart, she will pull him and leave Song Rong without letting go. She is really dead when she leaves Song Rong." Lin Fanyue mocked. "To be honest, I don't want to see Song Rong and regret losing me. I feel that Ning Lexia's viciousness is a woman's not qualified to be taken care of by Song Rong for the rest of her life."

Jiang Qingxin rolled her eyes and smiled suddenly, "I want Song Rongshi to recognize her true face."

"What did you think of?" Lin Fanyue came to his mind.

Jiang Qing was playful and said, "In fact, Ning Lexia didn't like Song Rongshi. She was purely taking advantage of Song Rongshi. With a mentality, I believe she might prefer Huo Xu a little bit, but she can't control Huo Xu at all."

"That's true. I believe that if Ji Ziyuan said anything to her back then, she would not choose Song Rong. Although Ji Ziyuan's scum is true and the scum is true, the skill is indeed true."

Jiang Qingxin said "Well" and there was a smile but a smile. "You said that after Ning Lexia and Song Rongshi got married, when the two got along with Song Rong, their careers continued, and there was a sudden decline in the road than Song Rong. With more money, if the man appeared, Ning Lexia would want to go out of the wall."

"Ahem."

While eating oranges, Lin Fanyue was shocked and choked. "Ah, did you want Song Rongshi to be cucked?"

"If he wears it for you, you don't want him to taste what it's like to be worn?" Jiang Qing asked happily, "Or will you hurt him."

"Heartache ass."

Lin Fanyue was anxious, and swearing verbally "I wish he would be greened for the rest of his life and he would do it to me, and I would never forget those things if I acted as a ghost."

"Okay, if you don't have heartache," Jiang Qingxin let go of his heart. "Song Rongshi is now like this, and I have a lot of wealth in the capital. And I recently united with domestic and foreign countries, and the

beauty company has tried to take advantage of Oulansheng. This time when I was surrounded by negative news, I suppressed it in one fell swoop. I waited for a year, and when Oulansheng couldn't keep it going, I bought it again."

" "

Lin Fanyue compelled to say "What are you talking about, I can't understand a word."

"Oh, when Song Rongshi recently betrayed you and cheated, things were troublesome, it's quite big, I deliberately fanned out with other beauty companies behind my back, Oulansheng is now being boycotted by many women, and you know skin care products, consumers are originally women. When there was Song Rong, the bad behavior aroused women across the country, and they were strongly dissatisfied that Oulansheng was

originally in China, and the market was quite large. There were many companies that wanted to kill it. With this Internet, there is a company in the era that wants to gain a foothold and has a reputation. It's very important. I'm doing it now to ruin Oulansheng, word of mouth."

"66666 has great and big bosses." Lin Fanyue, admiration is like a surging river.

"What then?"

"Song Rongshi still has some abilities. With him, he will definitely find a way to reverse his reputation. Yes, but now he has lost the Song family inheritance rights. Who would want to help him. Of course Ji Ziyuan will do it, but I will let Huo Xu suppress Ji Ziyuan. Tell him not to help."

Jiang Qingxin said, "Even if Oulansheng has resisted this hurdle in front of you, there is

a bad reputation, and no one will buy it. It will not last long. I will continue to launch our research and development during this period. New products are there. At that time, we will have to make chain products such as beauty salons and home care products. We will make our company called Yuexinyan bigger. As for Oulansheng, I will buy it within two years. When the time comes, Song Rongshi will work for us. "

Lin Fanyue ""

She didn't know what to say when she heard it.

She was wondering how far a company could grow if she opened it?

Is this Yue Xinyan?

"That Jiang always has the idea of how you could be so terrible and ambitious."

"Oh yes, just take care of you for a few days, see you being kicked by Song Rongshi, and feel unwilling to be paralyzed." Jiang Qing was fierce, and said, "Hehe, I am not afraid of him, and if the company breaks down, I will not have my surname Jiang. I thought that there was a sister who didn't have anything, and sometimes I also engaged in the Hesong Group. I don't believe that I can't make Yuexinyan a global brand if I have a network of people who have the power of my money."

Lin Fanyue "Don't say anything. If you have to stand in front of me, I will definitely bow down to you."

"Don't bow down and get well soon and enter the laboratory to develop new products." Jiang Qingxin said, "In addition to beauty, skin care products, shampoo,

shower gel, etc., you can research and study."

" "

Lin Fanyue looked at her wounds, she could not wait to remove her own wounds, and she would enter the laboratory now.

Ha ha.

Acquired Oulansheng.

Why didn't she expect it.

She couldn't wait to see Song Rong's cuckold.

It is definitely a great event in life.

It's five thirty in the afternoon.

Song Qingrui came in from outside with a bunch of things as soon as the nanny made the meal.

Lin Fanyue glanced at the shopping bag in his hand and asked, "Why did you come back so early after get off work?"

"Well, did I do something outside or went back to the office."

Song Qingrui walked to the cradle and took out a toy mobile phone from the shopping bag and put it in Yueyue's hand.

Yueyue laughed happily when she heard the music.

"You buy toys for Yueyue again." Lin Fanyue also saw that she really felt that Song Qingrui was too doting on Yueyue.

"When I bought the ingredients in the supermarket, I bought them as soon as I saw

them." Song Qingrui smiled, "There are many children's toys in the supermarket, but it is a pity that Yueyue is too young, and I can buy it for her when she is older. Every family's kitchen set has also, Barbie."

He said that he bowed his head and said to Yueyue, "The little guy grows up quickly and when the time comes, I will satisfy you with whatever you want."

Lin Fanyue was always envious when she heard it, so she joked quietly, "Little baby Yueyue said she wants a big castle."

"I can't help the big castle, but I can make Yueyue's mother work hard to find an old foreign man who owns the big castle." Song Qingrui said with a smile.

"Song Qingrui?" Lin Fanyue squinted her eyes and suddenly became dissatisfied.

"What do you mean, do you think I'm

divorced and I can only be worthy of the old man, right? Have you talk well."

Song Qingrui shrugged innocently and said, "Now that the protection of the ecological environment in foreign countries is basically forbidden to build big castles, aren't the owners of big castles all older old men? Yes, even if they are, offspring, there are old men who live in big castles and offspring. It is estimated that many of you have to pick exactly one of them who can inherit the big castle, just like you roll the dice."

Lin Fanyue ""

Caoyou couldn't refute her unexpectedly.

"So don't think of a big castle, it's not bad to have our presidential palace."

Song Qingrui turned around and went to the kitchen.

Lin Fanyue was stunned. She was sitting in a wheelchair and approached Yue Yue. She picked up the toy mobile phone and pressed it. There were a lot of nursery rhymes.

Half an hour later, there was a steaming hot pot of Mandarin Duck on the table.

Also on the table, there are various kinds of ingredients including hairy tripe, mutton rolls and beef rolls.

After smelling the scent, her saliva almost fell out.

After eating a piece of mutton, she was filled with emotion, "How can it be so delicious?"

"Of course it's delicious. The hot pot ingredients are all made by Mr. Qiao, the founder of the old Qiao Zhuang hot pot. Mr. Qiao De Qiao, do you know that I was on a

food show a few years ago." Song Qingrui said as he said. Scooped a piece of hairy belly in the pot and put it in her bowl.

Lin Fanyue was stunned and even ignored his movements.
