"Haha! Hit him! The harder the better! Cai Guofu failed his task despite taking the money. If his underlings can do it for him, that would be acceptable as well."

"Hehe... I can't wait to hear that b\*stard Lin Fan wailing in pain!"

Smiles crept up on the faces of the members of Bai Family. They seemed to have already foreseen the future of Lin Fan having his arm broken, as well as the pitiful sight of him wailing.

Ten steps... five steps... The group of securities were closing in, and in a blink of an eye they were in front of Lin Fan. In a swift and aggressive manner, they were about to swing their electric batons when—

"Halt! Everybody halt!" A terrified voice erupted from outside the building. The securities immediately halted and stopped dead in their tracks. The crowd shifted their gaze outside and saw the five Mercedes-Benz parked in front of the building.

A couple of well-dressed, middle-aged men stepped out of the cars in a hurry, as if a fire was lit behind them.

"Vice President Zheng?! Vice President Wang, and Vice President Li Ming..." Wu Xuepeng was stunned at seeing these men. The higher ups! They were the higher ups from the headquarters. Except for Cai Guofu himself, almost all

of them had graced them with their presence. And the one in the lead, was none other than the vice chairman of the headquarters, the business prodigy—Zheng Tian!

What a huge shock! The sight of them startled Wu Xuepeng. He trotted over to them after taking in the chaotic scene, facing Zheng Tian and the rest.

“Vice President Zheng, you are finally here! Please stand up for me! That brat bragged about taking over the Blue Ocean Building and caused a ruckus in here!” Wu Xuepeng filed a complaint despite being the perpetrator himself, setting Lin Fan up as the guilty troublemaker. “I ordered my men to chase him out, yet that barbarian broke my arm! Vice President Zheng, please deliver the justice I so deserve!”

To his astonishment, Zheng Tian seemed to not hear him; instead he marched toward Lin Fan in huge strides.

“Haha! This brat is going to reap what he sow! The vice chairman from the headquarters has arrived!”

“Yeah, he hit someone and was in for a scam. I would love to see him pick up his pieces!”

The members of the Bai Family had huge smiles on their faces upon witnessing this scene. It was as if they foresaw Lin Fan's future would turn out far more miserable.

On the other hand, Bai Yi's slender body trembled when she saw what happened. "Lin Fan, what should we do now?" Beads of cold sweat trickled from her forehead. From her perspective, what happened today was all her fault. If she had not boasted of taking over the Blue Ocean Building, it would not have led to this.

Her head went numb upon the sight of Zheng Tian and his group approaching herself and Lin Fan. As soon as Zheng Tian arrived to face them both, everyone held their breath, expectant of what was to come. However—

To the disbelief of everyone present, Zheng Tian and all the other board members bowed toward Bai Yi in unison.

"Zheng Tian, reporting to the Chairman!"

"Li Ming, reporting to the Chairman!"

They rolled out the sentences loud and clear, dropping them one after another.

The entire hall was dead silent, as if the silent mode was switched on. Wu Xuepeng, the entire Bai Family and even Bai Yi, went blank in their minds, wondering if their eyes were playing tricks on them. *They bowed? Chairman? Bai Yi?! How is this f\*cking possible?*

The audience in the hall erupted as soon as they caught onto the situation, especially the Bai Family, who

exclaimed as if they saw a ghost.

"What's going on? Why are they bowing to Bai Yi?"

"Yeah, isn't Cai Guofu their chairman? Since when was it passed on to Bai Yi?"

"Impossible! How can Bai Yi be the owner of the Blue Ocean Building?"

What a shock! The Bai Family saw the act of Bai Yi being rejected of her request as the norm, and her wanting to acquire the Blue Ocean Group was all but a delusional thinking. Yet now, they were in disbelief as to what had just transpired before their eyes, with Wu Xuepeng being the most skeptical of the situation.

"Vice President Zheng, y-you must be mistaken!" He looked at Zheng Tian and the rest of the board in astonishment as he stuttered out his question in a quivering tone of incredulity. "This woman wanted to acquire the Blue Ocean Group, but our chairman had refused it!" *This is unbelievable!*

To Wu Xuepeng, he was unable to come to terms with the fact that the woman in front of him would be the chairman reigning above him. All eyes turned to Zheng Tian while he cast Wu Xuepeng a menacing glance before proceeding to explain. "That is true. Mr. Cai had indeed declined Ms. Bai Yi's request to purchase!"

Everyone around him heaved a long sigh of relief. As expected, Cai Guofu had turned Bai Yi down. It meant that Zheng Tian and the others were mistaken, and there was nothing to worry about. However, Zheng Tian's voice continued to push through the commotion. "But as of now, Mr. Cai had transferred the ownership of not only the Blue Ocean Building, but all of his assets, to Ms. Bai Yi."

*What? What Zheng Tian had said sent everyone into a state of shock again. With their eyes wide open, they thought they had misheard him. Not only Blue Ocean Building, but all of his assets, handed over to Bai Yi?*

*H-how is this f\*cking possible? Wu Xuepeng's eyes nearly popped out of their sockets. He looked to Zheng Tian shakily and questioned in disbelief, "Vice President Zheng, that's impossible! Mr. Cai had told me he would never sell the Blue Ocean Building off, much less hand it over! Did she offer such an incredulous sum of money?"*

Wu Xuepeng refused to believe that Cai Guofu would sell this building off, unless he received an extremely generous offer. He was not the only skeptic; the Bai Family also turned their sight toward Bai Yi. From their point of view, Bai Yi would have to propose an enticing enough offer to procure it.

This was especially true of Bai Hai and his son, and it left them bewildered. Both of them knew, in order to

make things difficult for Bai Yi, Cai Guofu had already set the price of the Blue Ocean Building at an insurmountable sum of three billion. Taking into account his other assets, Bai Yi would have to secure at least ten billion in order to obtain all of them.

*Ten billion? Is that f\*cking possible?* Bai Hai exchanged a glance with his son, both noticing the incredulous in the other's gaze. In that instant, everybody in the hall felt the intense beating of their hearts. Even Bai Yi covered her mouth in disbelief. However, there was more to be heard.

"There was no price offered. It was a free transfer!" Zheng Tian's announcement was akin to setting off a bomb on the calm surface of a lake, stirring up a perilous storm within the hearts of everyone.
